

What's going to be built?

Some of the construction components of this 30.5 million dollar project include:

- ♦ Reconstructing and widening of the US 89/I-40B interchange
- ♦ Adding new signalized intersections at US 89 and Cummings Street into the Flagstaff Mall, and at Route 66 and US 89.
- ♦ Replacing the existing overpass structure over the BNSF railroad
- ♦ Routing the Flagstaff Urban Trail System through the new traffic interchange
- ♦ Addition of 3 new, professionally landscaped, detention basins to improve stormwater flow in the area
